Fully Managed Service

The Fully Managed Service is ideal for landlords, who have limited time to manage their property. We look after every aspect of the tenancy - including organising contractors when they are needed, conducting regular property inspections and managing day-to-day issues with tenants.

Some landlords prefer to be more hands-on. If you are willing to take on the responsibility of managing the tenancy and want assistance with some of the financial and administrative tasks, or simply want help finding a suitable tenant, then we have the following services, designed to support you:

The Rent Collection Service

Collecting rent can be one of the most time-consuming and potentially stressful aspects of being a landlord.

We help preparing the property to let-by selecting tenants, drawing up the necessary agreements and producing the inventory. We then take responsibility for collecting the rent and paying it to you by BACS. At the end of the tenancy we conduct the tenant check out on your behalf, charge an outgoing management fee and deal with the deposit repayment process.

Tenant Find Service

This service is designed to help you manage one of the most important challenges with letting a property - finding suitable tenants. We will market your property, conduct viewings, reference tenants, draw up the necessary agreements, produce the inventory and move your tenants in.

Looking to change from your current agent.

If you are unhappy with the service you are getting from your current agent, we're happy to discuss how to switch, and what would be the optimum time to make the transition. Perhaps you feel you are not getting the advice you need, or that your investment is not being handled as well as it should be. We will help you through the process of switching agents, and help you make a smooth transition. .

Throughout everything, good communication remains at the heart of our service.

We promise to keep you updated and informed without overwhelming you.

You need to think about whether you will be able to deal with maintenance issues at the property yourself. You'll also need to consider how much of a risk you want to take on financially - if you are reliant on the income from the rental property and there are some months when the property is empty, then you will lose those month's rent. This is where the Guaranteed Rent Service could help you.
